

1. Create a Virtual Herbal Garden that provides an interactive, educational, and immersive experience to users, showcasing the diverse range of medicinal plants used in AYUSH (Ayurveda, Yoga & Naturopathy, Unani, Siddha, and Homeopathy).
2. Mobile App for Direct Market Access for Farmers   Background: Farmers often face challenges in accessing markets, leading to lower income due to middlemen. This gap restricts their ability to sell produce at fair prices. Description: Create a mobile application that connects farmers directly with consumers and retailers. The app should include features for listing produce, negotiating prices, and managing transactions, thereby reducing dependence on intermediaries. Expected Solution: A user-friendly mobile platform that enables farmers to showcase their products and connect with buyers directly, enhancing their income potential.
3. Implementation of the Alumni Association platform for the University/Institute.
4. Parsing of Social Media Feeds
5. Development of a Geolocation-Based Attendance Tracking Mobile Application.
6. A comprehensive AYUSH Startup Registration Portal to streamline the registration process for startups in the AYUSH sector, enhancing efficiency, transparency, and accessibility.
7. Assured Contract Farming System for Stable Market Access
8. Health Data Information & Management System Mobile Application (HDIMS)
9. Mentor Connect
10. Development of a mobile application to provide recreational suitability information of beach locations across India.
11. Develop Effective Career Counselling and Guidance Programs in Schools to Enhance Student Career Choices
12. AI-Powered Student Assistance Chatbot for Department of Technical Education, Government of Rajasthan.
13. Freelancing Platform
